

How To Request Books Be Sent By Mail

If you are a current student living off-campus, the library will send books to you by mail. Below are instructions on the best way to do this.

Begin by searching the library catalogue for the books you want. On every list of search results, as well as in the bibliographic display, there is a button that says **Add to my list**. Clicking this button will add that book to your list of selected items. Once you click the button it will turn green and say **Remove**. This means the item is on your list and clicking again will remove the item from the list.

→ Please note that the button **Request Item** is for placing holds on items checked out by someone else, not for requesting books by mail.

If you want to continue searching the catalogue, do not use the back button on your browser as that can remove books you just added to your list. Rather, choose a new search from the search bar at the top of the screen, or click on the **Search** tab if the search bar is not available.

When you have completed your searching in the catalogue, you can view your list of desired books by clicking on the **My List** link at the top right corner of the screen. Note: the number indicates how many books you have added to your list.

Clicking on the **My List** link will show you all the books you have added to your list. Review the list of books to make sure these are the books you want. You can remove items at this stage, or use the search tab to find more items.

Once you have your list finalized, choose the **Email this list** option at the bottom left corner of the screen.

→ **Important:** do not send this list directly to us, as it will not come with your name attached. Rather, send the e-mail to yourself and then forward that message to us, adding your name and address to the forwarded email.
